- 24/7 real-time enterprise access from anywhere, anytime

▷ **Zero Cost of upgrades and enhancements**

"If I had used Pertexa when I was practicing orthopedic surgery I would have had an extra \$1M in my pension plan today..."

Dr. Krempen

"...It's fantastic that a claim can be at the payors even before the patient gets home... I cannot think of a medical practice that would not want to have increased reimbursements and accelerated cash flows..."

Providing Technology
Solutions for Healthcare
Reimbursement

WHO WE ARE?

Pertexa is a comprehensive medical practice billing suite that provides a unique combination of functionality and value, and is delivered over the Web through an Internet browser.

Pertexa enables medical practices of various sizes to enhance their practice, streamline operations, improve profitability, comply with HIPAA, and provide better patient care... all without a large IT investment or capital expenditure.

Simple yet powerful claims tracking built within the system. Easy identification of any possible errors even before the claim file is sent.

TEAM OF EXCELLENCE

Pertexa's team is made up of a broad range of personnel that are experts in their field.

Pertexa also has a National Presence. This allows for Local Support from an expanding team of customer service and sales associates.

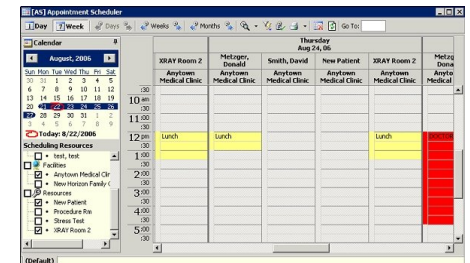

Together, Pertexa's Team of Excellence, offer a focus beyond coding and increased reimbursements, to include accelerating payments, the timely handling of appeals, and "best methods implementation" for a broad number of patient support services.

OUR TECHNOLOGY
